PROFILE

Recent Information Systems graduate from King Abdulaziz University with hands-on experience in Linux system administration, network configuration, and data analysis. Comfortable diagnosing technical issues, working with Excel and BI tools to support business decisions, and picking up new systems quickly. A clear communicator with a track record of delivering projects independently and in teams.

EDUCATION

Bachelor of Information Systems | *King Abdulaziz University* 08/2021 – 08/2026
Graduated: August 25, 2026

EXPERIENCE

Linux Administrator Intern | *CEHPC – King Abdulaziz University* Jun 2025 – Aug 2025

- Completed an 8-week, 240-hour internship at the Center of Excellence in High Performance Computing, trained on Linux administration, Bash scripting, network configuration, virtualization, and cluster installation & management, with direct hands-on use of the Aziz Supercomputer.
- Built and configured a mini compute cluster from scratch using Bash scripting as the capstone project.
- Officially recognized by the center for strong conduct, punctuality, and reliability — consistently completing individual and team assignments on schedule, with commendations for teamwork, problem-solving, and critical-thinking skills.

PROJECTS

AutoVM | *Bash Scripting, Linux, Networking* [Completed]

- Built a Bash script that automates virtual machine creation and server connectivity setup on Linux, cutting down manual provisioning steps for lab environments.

Coffee Shop Sales Analysis | *Excel, Power BI, Python* [Completed]

- Cleaned and analyzed a coffee chain's sales data, then built an interactive Power BI dashboard with KPI cards, revenue trends, and peak-hour analysis to support business decisions.

Car Insurance Risk Classification | *RapidMiner, Data Mining* [Completed]

- Solved a risk-prediction problem by systematically testing preprocessing techniques and classifiers, identifying the best-performing model through structured comparison.

Esports World Cup 2024 Performance Analysis | *Power BI, DAX* [Completed]

- Built a multi-page Power BI dashboard analyzing team and match performance across five games, with geographic attendance mapping and dynamic filtering.

Sabba – AI Coffee Brewing Assistant | *Laravel, React, Google Gemini, PostgreSQL, Docker* [Completed]

- Solo full-stack project: an AI agent that generates coffee recipes, pairing a React frontend with a Laravel backend and dedicated tools that own every numeric calculation.

9oora | *Laravel, React, REST APIs* [Completed]

- Built the frontend and backend for a photo-studio booking ERP — a RESTful Laravel API with a React frontend for managing bookings and client sessions.

KAU-ESPORTS | *Flutter, Firebase* [Completed – Graduation Project]

- Mobile app for organizing university esports tournaments — handled brackets, team registration, and match scheduling as the team's graduation project.

SKILLS

IT & Systems: Linux Administration, Network Configuration, Virtualization, Cluster Management, Bash Scripting, Git, Docker

Data & Excel: Microsoft Excel (Advanced), Power BI, SQL, Python (Pandas), Data Cleaning & EDA

Problem Solving & Tools: RapidMiner, Machine Learning Fundamentals, Troubleshooting, CI/CD (GitHub Actions)

Soft Skills: Communication (Arabic & English), Problem Solving, Teamwork & Collaboration, Time Management, Critical Thinking, Adaptability

COURSES & CERTIFICATIONS

- Microsoft Power BI Data Analyst (PL-300) – In Progress
- Data Analysis Bootcamp – Hash Plus (30 hrs; Power BI, Python, Excel)
- Data Analysis Using Python Bootcamp – Saudi Digital Academy (SDA the Hub)
- Machine Learning Professional Certification – RapidMiner (Altair)
- Data Engineering Professional Certification – RapidMiner (Altair)

LANGUAGES

Arabic (Native) | English (Professional)
